

# J.M.GILLIES 2019 AFTA AWARDS

## Gillies AFTA AWARD

### BEST TACKLE MANAGEMENT

Plano have re-invented the Stowaway with the launch of EDGE! At first glance, you'll notice the clarity of the lid, and the massive 1-handed latch and side moulded handles. The Edge Master crankbait 500 series is the shallow version and has Silicone Fingers which protect lures, hooks and finishes.

## EDGE

### PLANO EDGEMASTER 500 CRANKBAIT

## Gillies AFTA AWARD

### BEST LINE

FINS Fighter PRT differs from the original PRT in that we have improved the resin system which is applied as well as the method to apply it. This results in a rounder more abrasion resistant product that has a better strength to weight ratio than the Original PRT.

### FINS FIGHTER PRT BRAID

## Gillies AFTA AWARD

### BEST CLOTHING ACCESSORY

The Rhinoflex glove is highly-breathable and fits like a second skin allowing natural movement on the reel. Prevent injuries from the thrash: the tough-but-flexible polymer shell delivers maximum impact and abrasion protection. Gorilla Grip's proprietary polymer technology on the palm pulls moisture away from the surface and provides maximum grip in wet and oily conditions.

**ANSI 105**  
CUT RESISTANT LEVEL PERFORMANCE RATINGS

ANSI 105:2016 revision specifies a new 2015 ASTM test standard, ASTM F2992-15 Standard Test Method for Measuring Cut Resistance of Materials Used in Protective Clothing with Tomodynamometer (TDM-100) Test Equipment. Test Results from the CPPT tester are no longer allowed. From the result of the ASTM F2992-15 test, the ANSI performance level for Cut Resistance is assigned from ANSI Cut level A1 to A9 as the chart shows.

The European Commission is also planning to adopt the TDM-100 test equipment and ISO 13997 Test Method for higher Cut Resistant materials for EN 388 Cut Testing. The Coup Test Apparatus will still be allowed, for now, for testing lower Cut Levels. These changes will eventually result in closer global harmonization of Cut Levels between USA and European markets with Cut Levels that are much more closely aligned.

| A0    | A1          | A2              | A3              | A4              | A5              | A6              | A7              | A8              | A9      |
|-------|-------------|-----------------|-----------------|-----------------|-----------------|-----------------|-----------------|-----------------|---------|
| < 200 | 200 - 2,200 | > 2,200 - 5,000 | > 5,000 - 1,500 | > 1,500 - 2,200 | > 2,200 - 3,000 | > 3,000 - 4,000 | > 4,000 - 5,000 | > 5,000 - 6,000 | > 6,000 |

WEIGHT (GRAMS) NEEDED TO CUT THROUGH MATERIAL WITH 20MM BLADE TRAVEL.

### RHINOFLX A5 CUT GLOVES

**Gillies** AFTA AWARD

BEST FLY FISHING ROD

Through blank taper optimisation and specialised length offerings, the TROUT LL is perfected for wade fishing, closer casts, small flies, and light tippets. The TROUT LL's delicate touch and medium action is a dry fly anglers dream."3 to 6wt in lengths 7'9" to 9' ft.

**SAGE**

SAGE TROUT LL SERIES

**Gillies** AFTA AWARD

BEST FLY FISHING LINE

RIO's SureFire technology, which has been used in their fresh water fly lines in the past, is added to the Direct Core Flats Pro line. This triple colour, distance-marking design takes the guesswork out of accuracy and distance control, allowing anglers to make higher percentage shots to cruising targets.

RIO DC FLATS PRO LINE

**Gillies** AFTA AWARD

BEST FLY FISHING REEL

While honouring our heritage with a full-frame design, narrow profile, and classic styling, the backbone of the TROUT reel is our proven One Revolution, Sealed Carbon System (SCS) drag. The heart of the series is the 4/5/6 which will balance perfectly with the majority of all-around trout rods
